Lean Overview

A 5-Day Group Seminar & Workshop for senior and mid-level management to gain an initial understanding of lean principles and to map the current state of their factory and develop a plan for lean implementation.

Typical Size: 12-15 people

Course Name	Course Number	Days	Available Languages
Comprehensive Lean Overview	LT0505W2	5	English Chinese Cantonese

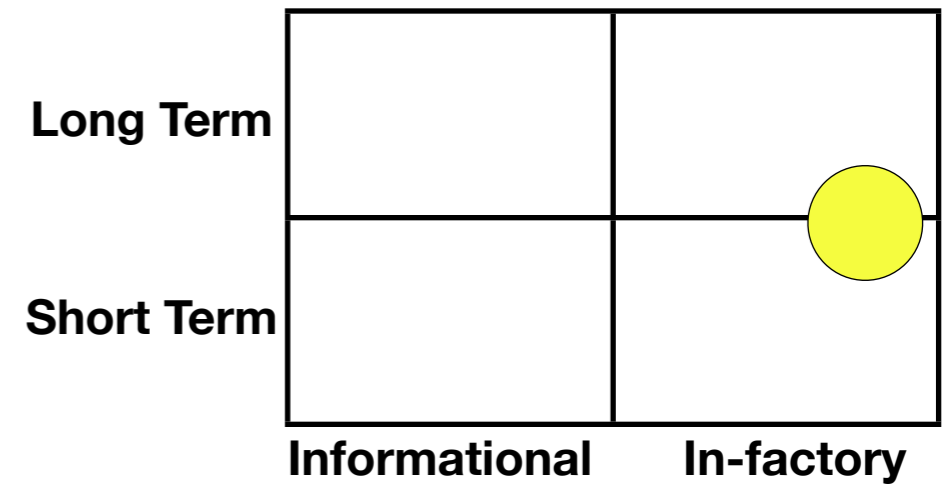

Lean Implementation

A 5 Day Interactive Group Seminar & Workshop for senior, mid-level and supervisory management to gain a sound understanding of what is involved in implementing a correct lean program.

As an addition to this 5 day training AMC recommends it is followed immediately with a 3 Day VSM (Value Stream Mapping) training for Senior and Mid-Management.
